## SLAYER ENDS HIS OWN LIFE

**Murderer of Mrs. Woodill Com-  
mits Suicide.**

**SURROUNDED BY PURSUERS**

**Robert Emmet Eastman Kills Himself  
Rather Than Surrender—Letter Left  
by Dead Man Gives Rambling Ac-  
count of Alleged Debauch Which  
Ended in One of the Women Killing  
May Edith Thompson Woodill.**

St. Michaels, Md., June 26.—The last chapter in a story of crime un-  
paralleled in this section of the coun-  
try was written in the half light of an  
early summer's day when the man  
accused of the heartless murder of  
pretty little May Edith Thompson  
Woodill—a spectre-like form fleeing  
in a skiff from a posse of determined,  
relentless pursuers—stood for a mo-  
ment facing the men who had cor-  
nered him on the waters of a narrow  
creek, then fired a bullet into his  
heart and fell a lifeless lump into  
the bottom of the boat which he had  
hoped would carry him to a landing  
place where flight might be possible.

Taking his fate into his own hands  
and blotting out untold the story of  
the death of a girl who had moved in  
the highest social circles of Balti-  
more, Washington and Los Angeles—  
a beautiful, talented girl who had  
been a protegee of Lyman J. Gage and  
of former Governor Frank Brown of  
this state—the man known here as  
Emmet E. Roberts, but who in reality  
was Robert Emmet Eastman, a failed  
broker of the Consolidated Stock Ex-  
change of New York, passed beyond  
the reach of the law and with his  
going there vanished the hope of  
clearing up the motive and the baff-  
ling details of this strange tragedy.

A letter found upon Eastman's  
body, addressed to Miss Vinnie Brad-  
come, care of Klaw and Erlanger, the  
theatrical managers, in New York,  
gave Eastman's ill-sustained excuse  
for the crime. It was a rambling ac-  
count of how he had been out in a  
launch with a party of men and wo-  
men, all of whom had been drinking  
to excess with the exception of him-  
self and Mrs. Woodill; of how one of  
the women in a fit of jealous frenzy  
had attacked Mrs. Woodill with a  
wine bottle and killed her; how the  
remainder of the party had taken  
flight, leaving him to dispose of the  
body and how as a means of escape  
from all of his troubles the writer had  
decided to end his life. Eastman  
asked Miss Bradcome to hurry to  
Maryland to take charge of his body  
and his property.

**Cast Aside This Theory.**

The authorities, after a thorough in-  
vestigation, apparently have cast  
aside this theory of the death of the  
girl. The first word received from  
Miss Bradcome conveyed the some-  
what baffling information that she  
knew nothing of a Mr. Roberts or of  
Mr. Eastman. Foreman Radcliffe of  
the coroner's jury wired Miss Brad-  
come to come and take possession of  
the body, however, and received a  
reply from her saying she could not  
come because of lack of funds. He  
has now wired her to draw on him  
for \$50 and is now awaiting develop-  
ments.

In order more fully to investigate  
the Bradcome letter, and other let-  
ters which now are said to have been  
found upon Eastman, the coroner de-  
termined to postpone a further in-  
quest into the death of Mrs. Wood-  
ill. The contents of the additional  
letters are withheld by the authori-  
ties, who desire that every possible  
clue shall be run down before the in-  
vestigation of the tragedy is ended.

A witness has been found, it is said,  
who overheard the voices of several  
persons merrymaking in Eastman's  
bungalow Sunday afternoon. The  
witness in question, whose name the  
authorities will not divulge, is said to  
be interested in religious work and  
was on his way to see Eastman about  
a meeting to be held Sunday evening  
which the man had expressed a de-  
sire to attend. Among the voices of  
the women in the bungalow, the wit-  
ness is said to have recognized that  
of Mrs. Woodill. Hearing the merry-  
making, the man did not stop to see  
Eastman, or Roberts, as he knew him.

This story is being investigated. It  
has been the theory of the authorities  
and of the examining physicians that  
the murder was committed some time  
Saturday night.

**EASTMAN WAS HER HUSBAND**

**Vinnie Bradcome Admits She Was  
Murderer's Wife.**

New York, June 26.—Vinnie Brad-  
come, the woman to whom Robert E.  
Eastman wrote his version of the  
tragedy at St. Michaels, admitted that  
she was Eastman's wife.

The young woman lives with her  
mother and sister at No. 132 West  
One Hundred and Twenty-ninth street.  
She is an actress, but has not played  
since the birth of her baby eight  
months ago.

When first approached the young  
woman denied having any knowledge  
of Eastman, but when confronted with  
proofs of her marriage from court  
records, she told of her marriage to  
Eastman more than a year ago at  
Hackensack, N. J.

The marriage, she said, took place  
Jan. 26, 1908, about two years after  
she first met Eastman.

"I lived with him just five days,"  
she said. "He treated me kindly, but  
he seemed to be laboring under a  
great strain that preyed upon his  
mind so much that I became fright-  
ened."

"When we went back to New York  
after a five-days' honeymoon I went  
directly to mother and told her I  
was afraid of Robert. She advised  
me to leave him at once, and I did so,  
coming here to live with her."

"I saw him only once afterward. We  
met one day last fall on the street  
and chatted for a few moments. There  
was no divorce, as neither of us had  
any grounds to base one on in this  
state."

"When baby was born, I tried to  
get in touch with Mr. Eastman to tell  
him about it, but he had gone away.  
I never heard of him again until I  
picked up today's paper and saw he  
was the 'Roberts' in this murder  
case."

## TRYOUTS FOR THE VARIOUS FLIERS

**Aeroplanes of Many Kinds Un-  
dergoing Tests.**

New York, June 26.—All sorts of  
queer looking and strange contriv-  
ances for sailing through the air are  
included in the flying machines en-  
tered in the public tests of the Aero-  
nautic society to be held at Morris  
park today. The society has been lib-  
eral in its definitions of practicability.  
Among the aeroplanes which will fly  
or try to fly today are some that have  
proved their ability to remain in the  
air for longer or shorter periods of  
time and some that will have no  
chance of raising their inventors' hopes  
either literally or figuratively.

Aviation experts regret that neither  
the Wright nor the Herring machine  
will be represented in today's flights  
or attempted flights.

The committee of the Aeronautic  
society in charge of the prize fund  
will award a \$2,000 prize to the ma-  
chine which has never made a public  
flight that makes a successful circuit  
of the Morris park course, about one  
and three-fourths miles, or that re-  
mains in the air ten minutes. For a  
machine going less than this distance,  
but 5,000 feet or more, \$1,000 will be  
awarded, or the same amount for re-  
maining seven and a half minutes in  
the air.

Lesser amounts are to be awarded  
for lesser distances, but the provision  
was made that all members of the  
society who succeed in flying 500 feet  
will receive prizes of \$250.

**Attempt to Wreck Train.**

Aberdeen, S. D., June 26.—A de-  
perate attempt to wreck a southbound  
Milwaukee passenger just north of  
Redfield, S. D., was made at night.  
A young farmer who was walking on  
the track to his home heard an explo-  
sion. He investigated and found a  
section of the track had been blown  
out. He flagged the passenger train  
and prevented a disastrous wreck.  
There is no clue to the perpetrators.

**Jay Eye See Is Dead.**

Racine, Wis., June 26.—Jay Eye See,  
known the country over as the first  
2:10 trotter, died on the Pleasant  
View farm, managed by Charles Bull,  
seven miles from here. The old track  
campaigner was thirty-one years old.

## TAXATION OF CORPORATIONS

**Provided for in Measure Sub-  
mitted by Aldrich.**

**APPROVED BY THE PRESIDENT**

**Bill Provides That Books of Corpora-  
tions Shall Be Open to the Inspec-  
tion of the Commissioner of Internal  
Revenue Whenever He Desires to  
Make an Examination—Punishment  
Provided for Concerns Making False  
Returns.**

Washington, June 26.—The senate  
put in another active working day  
and by the time the session closed so  
many schedules had been considered  
and disposed of that Mr. Aldrich free-  
ly predicted that by tonight all of  
them would be out of the way, leav-  
ing the senate free to begin considera-  
tion of the corporation tax and in-  
come tax amendments at the com-  
mencement of proceedings next week  
and to follow these with the adminis-  
trative features of the bill.

Beginning the day's session with  
an increase of 5 per cent over the  
house rate of 35 per cent ad valorem  
on harness, the senate marched stead-  
ily along throughout the nine hours of  
its sitting, indulging in very little  
speechmaking and acting upon many  
important provisions. Among the  
changes made were: An increase of  
the duty on scrap iron from 50 cents  
to \$2.50 per ton, thus placing it on  
the same level as pig iron; an in-  
crease of 1/4 of a cent per pound over  
the house rates on wire nails; an in-  
crease of from 4 to 6 cents per pound  
on monazite and thorite and other  
articles used in the manufacture of  
gas mantles, and the substitution of  
specific for ad valorem rates on files,  
rasps, etc.

Toward the close of the day Sena-  
tor Penrose of the finance committee,  
but not specifically for the commit-  
tee, presented an amendment fixing  
a duty of half a cent per gallon on  
crude oil and after considerable de-  
bate it was disagreed to. During the  
day the linoleum and oilcloth sched-  
ule was recast so as to apparently  
meet the demands of the insurgents  
and was adopted with the understand-  
ing that if it should not be satisfac-  
tory upon inspection in the record,  
the schedule could be re-opened.

**"Protection Gone Mad."**

The principal debate of the day was  
on the petroleum, linoleum and scrap  
iron provisions. Speaking of the pro-  
vision for a high rate of duty on scrap  
iron, Mr. Crawford declared it was  
"protection gone mad."

The provision was also criticised by  
Senators Cummins and Beveridge. It,  
however, found defenders in Senators  
Oliver, Dick and Aldrich. There were  
many efforts to amend the scrap iron  
provision, but it was adopted with-  
out change. Senator Penrose spoke  
at length in support of his oil amend-  
ment, declaring that it met the ap-  
proval of the independent producers  
and refiners. The oil fields of Mex-  
ico figured extensively in this discus-  
sion. Senator Gore declared that  
they were a myth.

On the eve of the adjournment for  
the day Senator Aldrich presented the  
corporation tax amendment approved  
by President Taft, stating that he  
hoped the senate would be in a po-  
sition to take it up for consideration  
Monday.

As laid before the senate, the presi-  
dent's measure follows closely the  
forecast of the plan as reported in  
press dispatches on Wednesday. As  
predicted in that forecast, the bill  
provides that the books of corpora-  
tions shall be open to the inspection  
of the commissioner of internal re-  
venue whenever he deems it expedient  
to make a detailed examination.

Punishment by both fine and im-  
prisonment is provided for the corpo-  
ration officials who make false re-  
turns. The tax is to be imposed on  
the net income of corporations over  
and above \$5,000, which excludes the  
smaller corporations and evades the  
unconstitutional feature by not tax-  
ing the larger corporations on the first  
\$5,000 of their income.

Bonds are excluded, that is to say,  
the amount of gross income set aside  
for the payment of interest in bonds  
and other indebtedness is to be de-  
ducted from the gross in arriving at  
the net income that is to be taxed.

The publicity feature is regarded as  
unusually strong.  
The tax is placed at 2 per cent.

## KILLED YOUNGER BROTHER

**California Boy Also Thought to Have  
Buried Victim Alive.**

Modesto, Cal., June 26.—Twelve-  
year-old C. Hopkins, self-confessed  
slayer of his six-year-old brother,  
Theodore, made a statement to the  
coroner that strengthens that official's  
belief that the victim was buried alive  
on the hill where his body was found  
Thursday. As he told of the shoot-  
ing and subsequent burial of his broth-  
er, Cecil ate candy and apparently  
failed to realize the gravity of the  
situation.

According to his story, he killed  
Theodore while the parents were ab-  
sent from home. The two quarrelled  
over their luncheon and Cecil drove  
his brother from the house and shot  
him.

Fearing the consequence of his  
deed when the parents should return,  
he dug a grave in the sand. While  
the grave was being dug, Cecil said  
Theodore moaned and outstretched  
his arms. The cramped position of  
the arms and the fact that the vic-  
tim's mouth was filled with sand  
added to the theory that the child  
was buried alive.

## MUST UNDERGO ANOTHER ORDEAL

**Chun Sin to Be Again Asked  
About Sigel Murder.**

New York, June 26.—In their  
search for the murderer of Elsie Sigel  
the police are still depending princi-  
pally on Chung Sin, former room-  
mate of Leon Ling, in whose room  
above the chop suey restaurant in  
Eighth avenue the girl's body was  
found. The next move, one which has  
been under consideration for several  
days, will be an attempt to straighten  
out discrepancies in his statements.  
To do this, he will be first put  
through another questioning in the  
room itself.

The little Chinaman, who is held as  
a witness, made partial admissions  
that he overheard the conversation  
between Elsie and Leon Ling in the  
next room before the girl was mur-  
dered. Subsequent denials of his  
have not altered the belief of the po-  
lice and he will be forced if possible  
to tell what he knows of this feature  
of the case.

A heavily veiled woman who would  
only say that she was a neighbor of  
the Sigels called at police headquar-  
ters and told Captain Carey of the  
bureau of homicides that two days  
after the murder she saw a Chinaman  
who she believed to be Leon Ling call  
at the house with Mabel Sigel, Elsie's  
cousin. Mabel Sigel has already de-

nied this story, which turned up pre-  
viously at headquarters from other  
sources. After her conversation with  
Captain Carey, the woman said that  
he told her that the police do not be-  
lieve that the murder was premed-  
itated but that Leon, already on the  
road down hill, killed her in a rage.  
Meanwhile Captain Galvin, in whose  
precinct lies Chinatown and who  
made the arrest of Chu Gain, prop-  
rietor of the Port Arthur restaurant, and  
found the letters to him from Elsie,  
was detached for forty-eight hours.  
Beyond the fact that Galvin is in-  
vestigating a clue, it could not be  
learned where he has gone.

The hope that Leon Ling might  
have shipped on the steamer Arizona  
bound from Norfolk to San Francis-

co around Cape Horn fell short when  
it was proved by her clearance pa-  
pers that she left Norfolk with the  
crew originally shipped at New York.  
Chu Gain, Leon Ling's rival, ap-  
plied to the district attorney's office  
for permission to leave town, but al-  
though he has offered to increase his  
bail from the present \$1,000 to \$5,000,  
his request was refused.

**Demands Aid of Militia.**

La Crosse, Wis., June 26.—A de-  
mand for militia was made by Presi-  
dent Edwards of the La Crosse City  
Railway company, whose employees  
are on strike. The situation became  
threatening when an attempt was  
made to storm the company's barns.

There is more catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

**Two Others Injured in a Train Wreck in Canada.**

Winnipeg, Man., June 26.—A west-bound Canadian Pacific railway freight train was ditched near Kamloops and five hoboos who were stealing a ride were killed in the derailment of seven cars. Two others, badly injured, were taken to Kamloops hospital. Traffic was tied up all day. Names and addresses of the dead are unknown.

**Arthur Heinze Found Guilty.**  
New York, June 26.—Arthur P. **New Baseball Record.**  
The Pacific Coast league made a baseball history the other day when a world's record was established at Freeman's park, in San Francisco, by the contest between the San Francisco and Oakland teams. For the first time in the annals of the national pastime a game between teams in one of the biggest leagues of the United States went for twenty-three innings without a run being scored. The break came in the twenty-fourth period, when the San Francisco team pulled out with the one run.

**COFFINS OF GLASS.**

Texas Inventor Provides Vacuum as a Last Resting Place.

A Baltimore manufacturer recently completed the first glass coffin ever made, it is said. Dr. H. G. Becker of Texas, the inventor, went to Baltimore to direct the casting of the coffins. They are warranted to be as lasting as if made of stone.

After the body is placed in the coffin the end is attached and hermetically sealed. The closing of the "breach" of the coffin opens a vial of chemicals which take gaseous form and act as an extra preserving agent. An air pump is then attached to an opening left for the purpose, a vacuum is established, and the aperture is sealed.

**Edward Everett Hale.**  
["He giveth his beloved sleep."] For him no heart in all the world Has any soreness than of grief. His was the kindly God who curled The tendrils and who spread the leaf, Who gave us sky and sun and rain And saw the world that it was good— No god of wrath and greed and pain, But one of human brotherhood.

He asked no god of grimy gold To give what mortals call success, He worshiped not in accents cold The mammon of unrighteousness, But just the good of doing good. Was all he wrote within his creed And joyed when that he understood The healing of another's need.

God's gladness in his clasping palm, God's sunshine in his cheering smile, He gave to aching hearts a balm And comforted in sorrow's while. And he was great—not of the sword, Not of the miter's pride or craft, Not of the clutched and clinking hoard, Not of the rival's venomous shaft.

But he was great because he went The path of gladness day by day And all he earned of joy he spent For those he met along the way. A kindly greatness this of his, But with no trace of kindly hate, For brother love and kindness is The base of what is truly great.

And so he folds his hands in sleep, His work well done, and his reward Is that he hears the chorus deep Of them that sing before the Lord. What finer thing has God to give, Than nobler task is writ on high, Than having such a life to live And having such a death to die? —Wilbur D. Nesbit in Chicago Post.

**ALL BLACK BALLROOM.**

Furnishing Craze Started by One of England's Richest Women.

The latest craze in furnishing is the all black ballroom. The fashion was set by Mrs. Houldsworth of London, one of the richest women in England, who inherited most of the money left by the late Mr. Assheton-Smith. The walls of her drawing room, according to a London cable dispatch, are of solid black ebony, with a deep frieze of gold flowers.

Above the frieze is a line of mirrors, and in these are reflected electric lamps, each inclosed in a golden lily which stands out in high relief from an ebony panel. The effect is to throw up the bright colors of the women's dresses, and the long line of mirrors prevents any touch of somberness.

Lady Drogheda, who only recently returned from a very up to date honeymoon, was so fascinated by Mrs. Houldsworth's ballroom that she is following suit with an all black drawing room relieved with silver and countless small electric lamps ingeniously hidden in its moldings.

## WATER WORKS CO. GETS ITS INNINGS

Expert Engineer Places Value of  
Plant at \$110,014 Includ-  
ing Franchise

PHYSICAL VALUE IS \$66,633

This Includes \$6,421 Engineering  
Value Which City Says  
Does Not Exist

The water works company placed its first witness on the stand Friday afternoon, B. Williams, of Chicago, being sworn. Mr. Williams, as was to be expected, varies widely from Mr. Burch, the city's expert. Mr. Williams placed the present value of the plant at \$60,212, and added \$6,421 for engineering value. The latter factor Mr. Burch denies exists. On the contrary, he, in making up his estimate, deducted one third from the value of plant because he says an engineering blunder was made in putting kalem in pipe. Mr. Williams adds \$43,384 to the physical value of the plant by reason of the franchise and the proven earning capacity of the plant, and this is also an element which the city denies exists.

Mr. Williams was on the stand this forenoon, most of the time under cross examination by A. D. Polk, special attorney for the city. In the course of his examination Mr. Polk asked Mr. Williams if the present plant would not be worthless if the water were taken from Spring Bay. Mr. Williams did not think so. He believed that the city should not be entirely dependent upon one line of pipe across the river, but should retain the present plant and intake, using the present pumps as auxiliary pumps and retaining the present twelve inch main from the pump house to the city and installing a second one. He did not believe it good policy, nor was it considered so in other cities, for the city to be dependent upon a single main leading from the pump house to the business districts. He said that Mr. Burch, in estimating the weight of cast iron pipe necessary to install a plant had designated a weight of pipe lighter than any used for waterworks purposes in any city.

The hearing adjourned just before noon today, the examination of Mr. Williams having been concluded at that time. The appraisers will meet again next Wednesday morning to resume the taking of testimony. The adjournment was taken at noon to permit the gentlemen desiring to go to St. Paul and Minneapolis to get away on the afternoon train.

### LAST OF SENIOR WRANGLERS.

Famous Cambridge University Honor  
Won by Chilean Student.

The last senior wrangler to be given by Cambridge university in England was awarded to P. J. Daniel of Valparaiso, Chile. Mynott Neville of London obtained second place, and Louis J. Wordell, son of Phineas Wordell of Philadelphia, was third.

The keenest interest was taken in this competition, and the presence of the South American students gave the contest an international aspect.

Louis J. Wordell, who came near winning the last senior wranglership, is anxious that a wrong impression should not get abroad respecting his objections to being coached for the examination.

"If I had been coached," he said, "I should not have done as well as I did. This I know from past experience."

For the last 150 years and probably longer the term senior wrangler has been given at Cambridge to the man who was first in the annual examination qualifying for the bachelor of arts degree in mathematical honors. The custom now has been abolished.

## RYAN IS TO PROBE

Brainerd Attorney is Appointed by  
Gov. Johnson to Hear Evidence  
in Beltrami Case

St. Paul, June 25.—Mr. E. Ryan, of Brainerd, was today appointed by Governor John A. Johnson as commissioner to take evidence in the proceedings for removal of four Beltrami county officials. Mr. Ryan is a democratic attorney. He will begin hearing testimony at Bemidji July 7. J. J. Cameron, of Bemidji, will be official stenographer. M. F. Kain, deputy public examiner, author of the official report on which the charges were based, will be present as the principal witness. Lyndon A. Smith, assistant attorney general, will attend the hearings as legal adviser.

The proceedings are against the county auditor, John Wilmann, and three county commissioners, Wes Wright, F. O. Sibley and A. W. Dahaher. They will all be represented by attorneys.

It is understood that the case made by the Kain report as to Commissioners Sibley and Danaher is weak, as it rests upon the allowance of illegal claims by the county board. There is no record of the votes on these claims, and unless more evidence is brought out there will be difficulty in securing their removal. Many illegal acts are charged against the auditor, but the main accusation is incompetence. Wright is charged with being interested in a contract which he helped to let.

## MUSIC AND DRAMA

### The Burgomaster

Fairly effervescent with musical gems of genuine merit, in fact Pixley & Luder's best effort, "The Burgomaster," which comes to the opera house July 9, promises to prove the brightest and best of the musical shows to be offered the present season. All the favorites, "Goodbye New Amsterdam," "Keep Cool," "We're Civilized Now," "The Dutch Cadets," "I Drink from my Heart to You," "We Always Work the Public," "Little Soubrette," "Dear Old College Days," "Rainy Daises," "Tale of the Kangaroo," "I Love You Dear and Only You," "Cupid Does Not Marry," "Modern Gladiator," "Haven't Discovered Him Yet," will again be heard as well as several entirely new and original interpolated numbers, including one entitled "How Many Have You Told That To?"

## NO CRACKERS IN THIS FOURTH

With Five Bands, Parade and Salutes  
Cleveland Expects Sane Celebration.

The sane Fourth of July committee is ready for its accidentless, fire-crackerless Fourth in Cleveland, O. It is planned to make the parade a big sane Fourth feature. The parade will disband at the public square, where school children will sing patriotic songs.

Pageants depicting important events in American history will be arranged for, and national and patriotic organizations in uniform will be asked to join in the parade. Four or five bands in the public square will play the same airs with one leader to direct all. At the close of the singing the flag, raised according to military regulations at sunrise, will be sent up to the top of the staff.

Immediately following this a salute of thirteen guns will be fired by the military on the lake front.

## VOCAL SANDS AND STONES.

Prospector Discovers Strange Singing  
Sands in California Mountains.

Singing sands and speaking stones are reported by Henry Heinell to have been discovered by him while on a prospecting trip in the Santa Monica mountains, says a Los Angeles (Cal.) dispatch. According to Heinell, these "matins of the damned" are at times not unlike the notes of a melodeon or a pipe organ. Again they sound as if a chime of bells were rung in the distance, and just after sunset or at dawn of day the sound might be compared to the string of the harp.

Heinell ascribes the phenomena to the presence of hollow grains of sand. He says that when such sands were stepped upon or rubbed together the action was accompanied by the singing sounds.

### Provision for Future of Babies.

"What right have we to save a baby's life," asked Dr. Henry B. Favill at a recent luncheon in Chicago given by the Illinois congress of mothers, "if we don't provide for its future?"

"We have no moral right," he continued, "to get children up to adolescence and then neglect them. The ill that beset them then are just as perilous as those which menace their early days. In accomplishing one thing we are not diminishing our own labor or our subsequent care. It is the business of the commonwealth to take care of children through their various stages to maturity. The playground problem is one for infancy, and when it is accomplished others present themselves."

## AMATEUR BASE BALL

The Brewsters went to Verndale today noon to play at that place this afternoon. Tomorrow they will play Staples at that place.

The following is the lineup of the Brewsters: Willis c, Alderman c, Paine lb, Carlson 2b, E. Bush ss, L. Bush 3b, O'Connor lf, Trent cf, White rf, Mahlum and Clark substitutes.

Charles Bush went to Little Falls this afternoon to play with the Sauk Centre team against Little Falls.

Little Falls defeated Royalton at Little Falls yesterday, by a score of 1 to 0, Tommy Templeton, of Brainerd, making the winning run for the Little Falls team.

The Colored Gophers, a noted St. Paul team will pass through Brainerd tonight on their way to Bemidji, where they will play with the local team Sunday and Monday.

### Vagaries of a Cold

You can never be quite sure where a cold is going to hit you. In the fall or winter it may settle in the bowels, producing intense pain. In the summer it may give you colic with diarrhoea or summer complaint. Do not be alarmed nor torment yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the pain or cramp take Perry Davis' Painkiller in warm, sweetened water and relief will come at once. There is but one Painkiller, Perry Davis. It is now put up in a large 35c size as well as the regular 50c size.

## ODD GIFT FOR CANNON.

Speaker of the House Received Stick  
of Licorice From New Yorker.

One of the most curious gifts that have ever been received by Speaker Cannon came to him recently from A. W. Ten Eyck of New York. It was a small stick of licorice inclosed in a common envelope without a word of comment, says a Washington dispatch. The package lay in the New York post-office for ten days because of insufficient postage. It was finally forwarded by Postmaster Morgan and opened by L. Whyte Busbey, the speaker's secretary.

The round tube of licorice was examined gingerly before it was shown to the speaker in order that its identity might be fully determined.

"It might be a bomb," was the suggestion made by a visitor to the speaker's room.

"No," answered Mr. Cannon. "It was probably sent by some friend to break me of the tobacco habit."

Mr. Busbey says that the licorice is one of the strangest bits of correspondence he has ever been called on to answer. Some time ago a match and a piece of bologna sausage were sent to the speaker, but the name of the sender was not given.

"Yes," said the suburbanite as he wielded a hoe, "I am fond of poultry dinners."

"Then it is a wonder you don't raise chickens instead of flowers," remarked the mutual friend.

"Oh, what's the use? My neighbors raise the chickens."—Cleveland News.

### Women Who Are Envid

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney poisons show in pimples, blotches, skin eruptions and a wrecked complexion. For all such, Electric Bitters work wonders. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at H. P. Dunn's.

## PREPARE NOW FOR FAIRS

Orange Judd's Farmer Gives Good Advice as to Preparing for  
Farm Exhibits

"Don't wait until just before fair season to get ready for exhibiting at fairs," says the Orange Judd Farmer. "Begin right now. Decide what farm crops you will want to take to the fairs. Pick out the animals which are to compete for premiums. Give them the best of care and attention. If field crops, fertilize the land, cultivate carefully and select judiciously. Give the matter a lot of time and attention."

"It will pay, if you don't win a premium. More satisfactory results from your crops will be sufficient compensation. If you are to exhibit farm animals provide the best of pasture, grain feed, plenty of shelter when needed, and give a great deal of attention to having them halter broken, so that they may be properly exhibited."

"The fair season last year was highly successful. With an even break this season, the fairs ought to be very much more successful. They can only flourish when enthusiastically supported, only when exhibitors get fair treatment and when visitors get the worth of their money, and when everybody works for the good of the fair, ignoring individual interests. We do not hesitate to urge exhibitors to do their best."

## WHAT KIDNEYS DO

Their Unceasing Work Keeps us  
Strong and Healthy

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy parts of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Oscar Oppgaard, living at 611S. Tenth St., Brainerd, Minn., says: "I speak from experience when I say Doan's Kidney Pills are most effective in removing backache and regulating the action of the kidney secretions. Some time ago I procured this remedy from H. P. Dunn's drug store, and from the excellent results obtained from its use, I am thoroughly convinced that Doan's Kidney Pills did all that is claimed for them in my case."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## COAST AND SLOPE FIGHT

Leach Cross of New York and Dick Hyland of California Meet.

San Francisco, June 26.—It will be the Pacific slope against the Atlantic coast here this afternoon when Leach Cross of New York and "Fighting Dick" Hyland of California meet in their forty-five-round bout.

The local sports expect to see a fight that will pull them out of their seats. The two lightweights have met before and are both anxious for victory in today's scrap. The length of the fight makes it practically certain that it will decide the question as to which is the better man.

## Hot Stove—Cool Kitchen

How do you expect to endure the broiling days of summer if you prepare all the food over a glowing coal fire?

You need a "New Perfection" Oil Stove that will do the cooking without cooking the cook. It concentrates plenty of heat under the pot and diffuses little or none through the room.

## NEW PERFECTION Wick Blue Flame Oil Cook-Stove

besides being the perfect stove for summer use is just as efficient for year 'round use. Does anything any other stove will do. It is built just like the modern steel coal range, with a CABINET TOP that makes it possible to keep food warm after it is cooked. Made in three sizes. Sold either with or without Cabinet Top. If not at your dealer's write our nearest agency.

The **Rayo Lamp** a substantial, strong-made and handsome lamp. Burns for hours with a strong, mellow light. Just what you need for evening reading or to light the dining-room. If not with your dealer, write our nearest agency.

## WINS GOLF CHAMPIONSHIP

Englishman Proves Big Surprise in National Contest.

Englewood, N. J., June 26.—George Sargent, entered from the Hyde Manor club, Sudbury, Vt., won the fourteenth annual open golf championship of the United States over the Englewood club's links by four strokes, his medal play total at 72 holes being 290. The outcome of the contest could not have been more surprising. Sargent a year ago was unable to qualify for the second day's play in the same event at the Myopia course and was never considered likely to cut any sort of a figure in such a searching test. He has done well in one or two of the Canadian championships, where the field is in no way comparable with that in the United States. Sargent, who began as a caddy, is an Englishman. As he is counted with Dominion players, the feeling is that the title has really gone to Canada.

Second place went to Thomas McNamara of Boston, who also began as a caddy. Walter J. Travis, former international titleholder, was the only amateur to share in the purse, which, of course, in his case will be changed to plate.

## WEEKLY REVIEW OF TRADE

Improvement Due to Better Weather and Crop Reports.

New York, June 26.—Bradstreet's review of trade says improvement is more manifest this week, the main-spring of this being better weather and crop reports and further expansion in the volume of industrial operations. Retail reports are still rather irregular, excessive heat being credited with retarding distribution in some sections, but on the whole sales of summer goods have been benefitted by more seasonable temperatures. Jobbing trade reports are slightly better, pointing to an improvement in reorder demand, but by far the best reports as to distributive trade still come from wholesale lines, which represent crop reports stimulating the placing of business for next fall and spring delivery.

## Boy Had Fits For 6 Years

Best doctors gave him up—cured by DR. A. W. CHASE'S NERVE PILLS

Mrs. J. D. Palmer, 38 Park St., Amsterdam, N. Y., writes: "When six years of age my boy began to have fits. They came on in the night. He would make strange noises, stiffen out, froth at mouth, face would twitch and sometimes turned purple. After the fit he could not talk."

"The family physician said all he could do was to keep them down somewhat. The second physician pronounced trouble Jeffersonian epilepsy, but could not cure him. He suffered for six years and before beginning the use of Dr. A. W. Chase's Nerve Pills had three fits in about five days. He has taken seven boxes and has not had the symptom of a fit since beginning this treatment five months ago. His color has greatly improved; he is not nervous and irritable like he used to be, and we consider his cure a most remarkable one."

Dr. A. W. Chase's Nerve Pills fifty cts. a box, all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portraits and signature of A. W. Chase, M. D., on every box.

## OBTAINS LEGAL SEPARATION

Mrs. Howard Gould Wins Suit Against Her Husband.

WITH EXCEPTION OF ALIMONY

Trial Ends in a Complete Victory for the Plaintiff—Sued for Quarter of a Million a Year and Allowed Thirty-six Thousand Dollars—Vindicated of Charges of Intoxication—Congratulated by Her Friends.

New York, June 26.—After a trial which lasted nearly three weeks, Katherine Clemons Gould obtained a legal separation from her husband, Howard Gould, third son of the late Jay Gould, by a decision of Justice Dowling in the supreme court. With the exception of alimony, her victory was complete, but in this phase of the case the court decided that \$36,000 a year was sufficient, although in her suit Mrs. Gould asked for \$250,000. She has been receiving \$25,000 a year from Mr. Gould, so that the amount fixed by the court is but a slight increase compared with the amount sued for.

It was in the vindication of charges of intoxication and her alleged relations with Dustin Farnum, the actor, that Mrs. Gould scored most strongly, for notwithstanding the long array of witnesses for Mr. Gould, who gave such testimony as to make Mrs. Gould appear as defendant rather than plaintiff, the court held that the

HOWARD GOULD.

alleged "intoxication" might have been due to excitement. As to Dustin Farnum, it was held that her association with him came after Mr. and Mrs. Gould separated and that the husband apparently made no objection.

Immediately after the decision Delancey Nicoll, for Mr. Gould, asked for a sixty-day stay of judgment, and Clarence J. Shearn, for the plaintiff, was on his feet to object. He asked for an immediate judgment. Justice Dowling compromised by making the stay thirty days. Mr. Shearn then asked for an extra allowance for counsel fees and the court gave him \$2,000. This, together with the \$10,000 allowed recently and the original allowance of \$5,000, will bring his fees to \$17,000, with an additional sum of \$3,900 for expenses.

Friends of Mrs. Gould began to crowd about her as soon as the decision was announced. She had been somewhat lonely during the trial, but after the verdict she was kept busy receiving congratulations. As the decision was read she kept her head cast down and seemed plainly disappointed by the allowance. As soon as the case was closed, however, she shook hands warmly with Mr. Shearn and thanked him for his conduct of her case. Then she beamed upon her friends and even smiled upon the downcast trio of lawyers who had fought for her husband's interests.

Howard Gould hurried from the room as soon as the decision was given and declined to discuss the case. Mrs. Gould left the court with Mr. Shearn and drove away in an automobile.

## ENGINE JUMPS THE TRACK

Both Fireman and Engineer Killed in the Wreck.

Middletown, N. Y., June 26.—Engineer Reuben Vandemark and Fireman Lester Dougherty of New York, Ontario and Western train No. 1 were killed at White House curve, three miles north of Livingston Manor, when the engine and combination baggage car suddenly left the track and went down a ten-foot embankment. Two passenger coaches left the track, but did not go into the ditch. The passengers were badly shaken up, but none was seriously injured.

## Driven Insane by Heat.

New York, June 26.—Driven temporarily insane by the excessive heat, Mrs. Emma Monthly threw herself and her eight-year-old daughter from the roof of a five-story apartment house in Quincey street, in an exclusive section of Brooklyn. Both were instantly killed.

## EAST SWELTERS IN HEAT

Many Deaths and Prostrations Are Reported.

New York, June 26.—Almost the entire state of New York and practically all of New England sweltered in the heat.

The maximum temperature recorded here during the day was 92 degrees. There were at least seven deaths in the city proper due to heat, one suicide and two attempts at suicide. Prostrations were so frequent as to pass almost unnoticed. One other death occurred in Jersey City.

Conditions were almost unbearable in the manufacturing centers of New England and many mills and shops were closed. Two deaths occurred at Providence, R. I., and one at New Bedford, Mass. The mercury stood at 82 at Providence.

In New York city many of the factories shut down during the afternoon. At 5 o'clock a 26-mile gale sprang up, bringing with it a downpour of rain, with thunderstorm accompaniments. In less than thirty minutes the mercury dropped to 69 degrees and in half this time a heavy rain fell.

## GEORGIA HAS A NEW HEAD

Governor Brown Is Inaugurated With Simple Ceremonies.

Atlanta, Ga., June 25.—With quiet, simple ceremonies befitting the unostentatious nature of the man Joseph M. Brown was inducted into office today as governor of the state of Georgia. In carrying out his intention to have an inauguration of the simplest kind consistent with the provisions of the state constitution Governor Brown walked to the state capitol dressed in a suit of Georgia made brown jeans.

Governor Brown was chosen as the Democratic candidate at the primaries in June, 1908, defeating Hoke Smith, the outgoing governor, who sought the endorsement of another term. The acute enmity between Smith and Brown began when the latter was removed by the former from his office of railroad commissioner. It was asserted that Brown favored the railroads unduly.

"My boy," said the first proud papa, "has a bad habit of interrupting me when I'm talking. Your kid isn't old enough for that yet."

"No," replied the other. "My boy contents himself with interrupting me when I'm sleeping."—Philadelphia Press.

## COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formula, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" to time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.
